Schlaf-Tablet®

lattoflex®

A good night's sleep, at long last...

Put your Schlaf-Tablet® under your bed. When you go to bed, your heartbeat is sufficient in order to let your Schlaf-Tablet® swing in finest lateral movements. The effect has been proven by clinical trials: **You will fall asleep faster, sleep through, improve your deep sleep.**

Sleep disorder solved or money back.

If you are not satisfied, you can return the Schlaf-Tablet® within six weeks. A call is sufficient. You will get your full purchase price back.

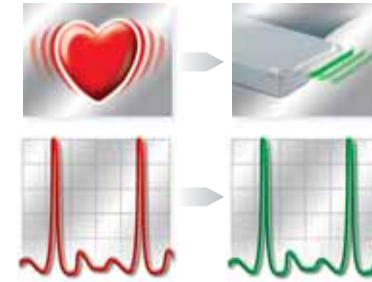

- no sleeping pills anymore
- fits under any bed
- satisfaction or money back
- without side effects

There is a sophisticated mechanism hidden in the Schlaf-Tablet® which enables the bed to swing horizontally within **millimetres**. This has a positive effect on the whole organism.

A simple principle:

The Schlaf-Tablet® lets your bed swing according to the heartbeat.

Cardiogram and seismograph show after a few minutes the same rhythm: Because the heartbeat transmits itself analogue to the Schlaf-Tablet®.

Being able to sleep again. Without pills or sleep doctor!

After many years of research and development, the company Lattoflex presents a total new solution for people with sleep disorders. The traditional company from Bremervoerde, Northern Germany, has already become known as the inventor of the wooded-slatted frame.

For people with sleep disorders, Lattoflex offers again a real innovation. The effect has been proven by clinical trials: **You will fall asleep faster, sleep through, improve your deep sleep.**

The one who takes sleeping pills, will not need them in the future. Try it out!
